

EPA ID: MON000704766 Site Name: SPRINGFIELD-BRANSON REGIONAL AIRPORT

State ID:

Alias Site Names: LITTON INDUSTRIES
MUNICIPAL AIRPORT

City: SPRINGFIELD

County or Parish: GREENE

State: MO

Refer to Report Dated: 09/29/2006

Report Type: SITE INSPECTION 001

Report Developed by: STATE

DECISION:

☒ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:

☒ 1a. Site does not qualify for further remedial site assessment under CERCLA (No Further Remedial Action Planned - NFRAP)

☐ 1b. Site may qualify for action, but is deferred to:

☐ 2. Further Assessment Needed Under CERCLA:

2a. Priority: ☐ Higher ☐ Lower

2b. Other: (recommended action) NFRAP (No Further Remedial Action Planned)

Springfield-Branson
MON000704766
1.0

SRG 102606

DISCUSSION/RATIONALE:

This site was investigated in association with the Northwest Springfield Groundwater contaminant plume that consists of VOCs, specifically TCE and its degradation products. These contaminants have been documented at the Litton Systems site, which is currently undergoing remediation activities under the oversight of the MDNR's Cooperative Program for VOC and heavy metal contamination in the subsurface soil and groundwater. In 2003, this facility, along with other facilities in the Northwest Springfield area, was identified for additional investigation due to its proximity to the groundwater VOC plume described above.

VOC contamination present at the bedrock surface is at levels below all health based benchmarks. Groundwater contamination is below MCLs. Contamination is not expected to pose a threat to human health.
